

XXVIII Annual Meeting  
Danish Society for Neuroscience (DSfN)

**“Stem Cells in a Neurotranslational Perspective”**

May 11th – 12th, 2015  
Hotel Hesselet, Nyborg

Speakers include:

Richard Wade-Martins, Univ. of Oxford: “Modeling Parkinson’s cellular phenotypes in iPSC-derived dopamine neurons to drive target discovery”

Laurent Roybon, Univ. of Lund: “Glial cells – new players in neurodegenerative diseases”

Christel Herold-Mende, Univ. of Heidelberg: “Insights in quiescence and immunobiology of glioma stem cells”

Malin Parmar, Univ. of Lund: “Transplantation and functional assessment of human stem cell/fibroblast derived dopaminergic neurons”

Raphael Guzman, Univ. Hospital Basel: “Stem cell transplantation in spinal cord injury”

Justin Ichida, Univ. Of Southern California: “Dissecting C9orf72 ALS/FTD disease mechanisms using induced neurons”

Brain Prize winner: Trevor W. Robbins, Univ. of Cambridge: “The Cognitive Neuroscience of Neurodegenerative Disorders: Implications for Therapeutics”

**For full program and registration: [dsfn.dk](http://dsfn.dk)**

**Symposium organizers**

Morten Blinkenberg, Univ. of Copenhagen  
Tina Stummann, H. Lundbeck A/S  
Mark Denham, Univ. of Aarhus  
Helle Bogetofte, Bjarne W. Kristensen &  
Morten Meyer, Univ. of Southern Denmark

**Registration and payment**

Early registration (before April 10th)  
Members of DSfN: DKK 2700  
Non-members: DKK 3200  
Students: DKK 1000  
For membership & registration:
