

Marco Capogna, list of publications, impact factor = 33 Scopus

- total number of publications = 71
- number of peer reviewed publications = 66
- number of first and last authorships within the last five years = 18
- * denotes best papers

Bocchio M., Fisher S.P., Unal G., Ellender T.J., Vyazovskiy V.V., and Capogna M. (2016) Sleep and serotonin modulate paracapsular nitric oxide synthase expressing neurons of the amygdala, *eNeuro*, Journal of Neuroscience on line, Society for Neuroscience, in press, <http://eneuro.org/content/eneuro/early/2016/09/26/ENEURO.0177-16.2016.full.pdf>.

Bocchio M., McHugh S.B., Bannerman, D.M., Sharp T., and Capogna M. (2016) Serotonin, amygdala and fear: assembling the puzzle, *Frontiers in Neural Circuits*, Volume 10, Article 24, doi: 10.3389/fncir.2016.00024-

Bocchio M., Fucsina G., Oikonomidis L., McHugh S.B., Bannerman D., Sharp T., and Capogna M. (2015) Increased 5-HT transporter expression reduces fear and recruitment of parvalbumin interneurons of the amygdala, *Neuropsychopharmacology* (Nature publishing group), 40: 3015-26. *

Bazelot M., Bocchio M., Kasugai Y., Fischer D., Ferraguti F., and Capogna M. (2015) Hippocampal theta input to the amygdala shapes feedforward inhibition to gate heterosynaptic plasticity, *Neuron* (Cell Press), 87: 1290-303. *

Blaesse P., Goedecke L., Bazelot M., Capogna M, Pape H.-C., and Jüngling K. (2015) μ -opioid receptor-mediated control of extinction-relevant circuits in the mouse amygdala: inhibition of intercalated neurons, *Journal of Neuroscience*, 35(19): 7317-7325.

Bienvenu T.C.M., Busti D., Micklem B.R., Mansouri M., Magill P.J., Ferraguti F. & Capogna M. (2015) Large intercalated neurons of amygdala relay noxious sensory information. *Journal of Neuroscience*, 35(5): 2044-2057. *

Bocchio M. & Capogna M. (2014) Oscillatory Substrates of Fear and Safety. *Neuron*, 83: 753-755.

Capogna M. (2014) GABAergic cell type diversity in the basolateral amygdala. *Current Opinion in Neurobiology*, 26:110–116.

Li G., Stewart R., Canepari M., & Capogna M. (2014) Firing of hippocampal neurogliaform cells induces suppression of synaptic inhibition. *J. Neurosci.* 34:1280-1292. Commentary in *J Neuroscience* 34 (4)j-i.

Capogna M. (2013) Which molecules regulate synaptic brain asymmetries? *J. Physiol.* 591, 4687-4688.

Ellender T.J., Harwood J., Kosillo P., Capogna M. & Bolam J.P. (2013) Heterogeneous properties of central lateral and parafascicular thalamic synapses in the striatum. *Journal of Physiology*, 591 (1): 257-272.

- Manko M., Bienvenu C.M., Dalezios Y. & Capogna M. (2012) Neurogliaform cells of amygdala: a source of slow phasic inhibition in the basolateral complex. *Journal of Physiology*, 590 (22): 5611-5627.
- Bienvenu C.M., Busti D., Magill P.J., Ferraguti F., and Capogna M. (2012) Cell type-specific recruitment of amygdala interneurons to hippocampal theta rhythm and noxious stimuli in vivo. *Neuron*, 74 (6): 1059-1074, 2012. Paper selected and recommended for F1000. <http://f1000.com/prime/717950860>. *
- Capogna, M. (2012) Chemokines and HIV-1 virus: opposing players in Cajal–Retzius cell function. *Journal of Physiology*, 590 (13): 2949-2950.
- Wiera G., Wójtowicz T., Lebida K., Piotrowska A., Drulis-Fajdasz D., Gomułkiewicz A., Gendosz D., Podhorska-Okołów M., Capogna M., Wilczyński G., Dziegiel P., Kaczmarek L., and Mozrzymas J.W. (2012) Long term potentiation in the mossy fiber – CA3 pathway is associated with increased intracellular gelatinase expression and activity in the postsynaptic neurons. *Molecular and Cellular Neuroscience*, 50 (2): 147-159.
- Geracitano R., Fischer D., Kasugai Y., Ferraguti F, and Capogna M. (2012) Functional expression of the GABAA receptor alpha2 and alpha3 subunits at synapses between intercalated medial paracapsular neurons of mouse amygdala. *Frontiers in Neural Circuits*, 6, article 32, 1-6.
- Ellender T.J., Huerta-Ocampo I., Deisseroth K., Capogna M., and Bolam P. (2011) Differential modulation of excitatory and inhibitory striatal synaptic transmission by histamine. *Journal of Neuroscience*, 31 (43): 15340-15351. Commentary published: This week in the journal, *Journal of Neuroscience*, 31 (43).
- Manko M., Geracitano R., and Capogna M. (2011) Functional connectivity of the main intercalated nucleus of the mouse amygdala. *Journal of Physiology*, 589 (8): 1911-1925. Commentary published: Kaspar E. Vogt (2011) Dousing the flames of fear, *Journal of Physiology*, 589 (8): 1865.
- Busti D., Geracitano R., Whittle N., Dalezios Y., Manko M., Kaufmann W., Saetzler K., Singewald N., Capogna M., and Ferraguti F. (2011) Different fear states engage distinct networks within the intercalated cell clusters of the amygdala. *Journal of Neuroscience*, 31 (13): 5131-5144. Commentary published: This week in the journal, *Journal of Neuroscience*, 31 (13). Paper selected and recommended for F1000. <http://f1000.com/prime/9495957#citeEvaluationContent-11316054>
