

## 2-year postdoc position at the Center for Proteins in Memory (PROMEMO) 932622

The new Center for Proteins in Memory (PROMEMO) at Aarhus University invites applications for a postdoc position in molecular neuroscience. The position is funded by The Danish National Research Foundation and is initially for two years. The starting date is 1 January 2018.

With the aim of gaining insight into molecular mechanisms of memory, in particular of ionic channels and their regulation, the project will involve electrophysiological experiments and fluorescence based measurements, including two-electrode voltage clamping and cut-open voltage-clamp fluorometry with an unnatural amino acid.

The candidate is expected to have a Ph.D. in molecular biology or similar and to have experience with general molecular biology techniques as well as with electrophysiology. The candidate should be able to manage projects independently, be innovative, take responsibility for supervising students, and be a good team player.

The place of work will be the Department of Molecular Biology and will be part of a multidisciplinary Center of Excellence addressing memory from a variety of angles. The address is Gustav Wiedes Vej 10, 8000 Aarhus C and the area of employment is Aarhus University with related departments.

For further information contact Assistant Professor Hanne Poulsen [hp@mb.au.dk](mailto:hp@mb.au.dk)

### **Application procedure**

Short-listing is used. This means that after the deadline for applications – and with the assistance from the assessment committee chairman, and the appointment committee if necessary, – the head of department selects the candidates to be evaluated. All applicants will be notified whether or not their applications have been sent to an expert assessment committee for evaluation. The selected applicants will be informed about the composition of the committee, and each applicant is given the opportunity to comment on the part of the assessment that concerns him/her self. Once the recruitment process is completed a final letter of rejection is sent to the deselected applicants, including the main considerations emphasized during the selection process.

### **Formalities**

The application must be in English and include a curriculum vitae, degree certificate, a complete list of publications, a statement of future research plans and information about research activities, teaching portfolio and verified information on previous teaching experience (if any). Guidelines for applicants can be found [here](#).

### **Deadline**

All applications must be made online and received by: 31.10.2017
