

Collaboration Planning with Novo Nordisk

Wednesday 27 September 2017 at 12:30-15:30

**Stakladen, Meeting room 1, Fredrik Nielsens Vej 4,
8000 Aarhus C**

Collaboration planning is a skill set that can be learned. Come and join Collaboration Planning workshop, where you have an opportunity to interact with Industrial Post-docs from Novo Nordisk.

The workshop offers a simple process on how to build relationships, plan projects and proceed to a signed, legal agreement. This workshop will enable you to understand why collaboration proposals fail – and how you could be the principle scientist that succeeds.

Collaboration with a range of stakeholders is a key skillset for both academic and industry research leaders. At Aarhus University, the Corporate Relations and Technology Transfer unit is offering a workshop in “Collaboration Planning” to *PhDs and Postdocs* that will become the future research leaders within the life science industry and in academia.

The Talent Attraction in R&D Academic Partnerships, Novo Nordisk, will be also present at the workshop.
