

Dear DANDRITE:

Young Dandrite (YoDa) is inviting you to a new Method café!

The topic is:

ImageJ, what can you use it for?

ImageJ (aka FIJI) is an image processing system with many capabilities that you may not be using to its full potential. We will show you methods you can use on the software that you may not be familiar with, such as:

- Co-localization analyses
- Western blot quantification
- Sholl analyses
- Particle tracking – of cells or even zebrafish!

Tips:

- Bring your laptop!
- Download link: <https://imagej.net/ij/download.html>

When? Tuesday 5th of December 2023

What time? 13:00-14:30

Where? MBG Faculty Club (1870-816)

Cake, coffee and tea
will be served.
Hope to see you
there!
