

BrainTrain Seminar

Cerebrovascular Diseases:

Focus on ischemic stroke and cerebral microcirculation

14 December 2022, 15.00 – 17.00

Location: Merete Barker auditoriet, Søauditorierne, Bartholins Allé 3, Aarhus

Prof. Leif Østergaard
M.D., PhD
Center of Functionally Integrative
Neuroscience, Aarhus University

Prof. Claus Z. Simonsen
M.D., PhD
Dept. Neurology,
Aarhus University Hospital

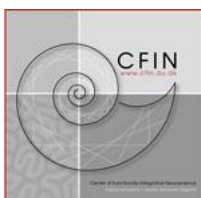

Christian Staehr
M.D., PhD student
Dept. Biomedicine,
Aarhus University

It is with great pleasure that we announce this exciting second BrainTrain seminar focusing on blood flow disorders in the brain.

The BrainTrain seminar series are organized by NeuroCampus Aarhus and dedicated to empower scientific excellence, collaboration, and interaction across the neuroscience disciplines at AU and AUH.

Programme:

- | | |
|---------------|---|
| 15.00 – 15.05 | Welcome, Vladimir Matchkov & Kim Ryun Drasbek |
| 15.10 – 15.50 | Prof. Leif Østergaard <i>“The microcirculation and brain oxygenation in Acute Stroke”</i> |
| 15.50 – 16.20 | Prof. Claus Z. Simonsen <i>‘Periprocedural conditions during thrombectomy and neuroprotection.’</i> |
| 16.20 – 17.00 | Christian Staehr <i>‘Microcirculatory dysfunction in penumbra following ischemic stroke’</i> |
| 17.00 – | Drinks - snacks - networking |

Aarhus University Hospital
