

Invitation to

AUSBI Bioenergetics Afternoon

Thursday 26th November 2026, from 13:00-17:30

Nucleus auditorium (1871-120), Universitetsbyen 81, Aarhus University

The AUSBI Bioenergetics afternoon meeting will bring together researchers at Aarhus University with an interest in all aspects of bioenergetics.

Bioenergetics explores energy conversion processes within living systems, and encompasses a broad range of research areas, from structural and molecular biology to clinical applications, microbiology and plant sciences.

At the meeting, we will **explore techniques and know-how available** to researchers at Aarhus University. The aims of the meeting are to share experiences with relevant techniques, and to connect research groups across AU, who share an interest in bioenergetics.

Open to everyone interested! Find more information and program on www.ausbi.au.dk/bioenergetics

CONFIRMED INVITED SPEAKERS

Ville R. I. Kaila

Professor

Dept. Biochemistry and Biophysics
Stockholm University

Rikke Katrine Jentoft Olsen

Associate professor

Dept. Molecular Medicine (MOMA)
Dept. Clinical Medicine
Aarhus University

Christian Damsgaard

Associate professor

Dept. Biology – Zoophysiology
Aarhus University

Johan Palmfeldt

Associate professor & Core Facility Manager

Core Facility for Proteomics, Metabolomics and Bioenergetics
Dept. Molecular Medicine (MOMA)
Dept. Clinical Medicine
Aarhus University

Andreas Schramm

Professor & Center Leader

Center for Electromicrobiology (CEM)
Dept. Biology – Microbiology
Aarhus University

The program also includes poster session, networking, and pizza

Registration

Registration link: <https://event.au.dk/events/ausbi-bioenergetics-afternoon>

Reg. deadline: **20th November 2026** (free of charge)

Meeting organizers

Amanda Bundgård, Dept. Biology, AU

Anna Duncan, Dept. Chemistry, AU

Rasmus Kock Flygaard, Dept. Molecular Biology and Genetics, AU
