

YoDA webinar: Efficient Scientific Writing

Young DANDRITE has invited Martina Michalikova, the WritingScientist, to give us insights into optimizing all the phases of writing a **research article**, which we all must do at some point. Learn how to:

- Write scientific texts more efficiently and with less frustration
- Apply approaches that lead to higher overall text quality
- Strengthen and further develop your scientific writing skills over time

When? Monday, 16th February 2026.

What Time? 14.00 to 15.30.

Where? Online

Registration deadline? 8th February 2026
