

# YoDA workshop: Hands-on with

## Interested in learning R from scratch?

Then join the *YoDa workshop: Hands-on with R*, where **Samuele Soraggi (BIRC, AU)** will deliver a beginner-friendly, hands-on introduction to R.

## By the end of this workshop, you should be able to:

- Open and import data into R
- Understand the structure of tabular data and manipulate it
- Create publication ready-plots
- Use an AI to originate a code that is useful for your specific purposes

## Prerequisites:

- Install R and R studio and confirm that they are working
