

YoDA workshop

The Successful Science Poster

Getting ready to make your first scientific poster or improve your existing ones? Whether for a conference, EMBL event, DANDRITE poster day, or a PhD day, YoDA has you covered!

In just 2 hours, learn to design impactful, visually appealing posters that effectively communicate your science. You'll gain practical tips to balance text, figures, and design elements for maximum effect. Who knows – you could be awarded the next poster prize!

Simone Brendstrup from Aarhus University's Centre for Educational Development will lead the workshop, tailored to DANDRITE's research background. It's open to all, whether you're a beginner or experienced poster designer.

Coffee, tea and cake will be served.
